

ARYAN CHODNEKAR

Mumbai, Maharashtra, India · [LinkedIn](#) · [GitHub](#) · [Portfolio](#)

PROFESSIONAL SUMMARY

Computer Engineering student with hands-on experience in Python, JavaScript, and frontend development. Skilled in building data-driven dashboards, desktop applications, and interactive web interfaces. Strong foundation in software development, problem-solving, and UI/UX-focused application design.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Engineering *Watumall Institute of Electronic Engineering and Computer Technology* Mumbai, Maharashtra | **Sept 2024 – Mar 2028**

- Affiliated with the **University of Mumbai**.
- Focused on Core Engineering principles, Software Development, and Systems Design.

High School Diploma (CS / IT) *KM Agrawal College of Arts, Commerce & Science* Kalyan, Maharashtra | **2022 – 2024**

- Specialized in Computer Science and Information Technology.
 - Developed a foundational understanding of programming logic and database management.
-

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL, HTML5, CSS3

Frameworks & Libraries: Tkinter, FastF1, Flutter, Chart.js

Tools & Technologies: Git, Google Analytics, Deep Translator API

Concepts: Data Visualization, UI/UX Design, Application Development, API Integration

PROJECTS

F1 Telemetry Visualizer

Technologies: Python, FastF1, Arcade

- Developed an interactive Formula 1 race replay dashboard integrating real-time telemetry data and driver position tracking.
- Implemented session playback controls and dynamic performance graphs to enhance race data analysis.
- Processed and visualized large datasets for improved user interaction and data interpretation.

AI Desktop Translator

Technologies: Python 3.13, Tkinter, deep-translator

- Built a lightweight desktop translation application with a user-friendly GUI.
- Integrated Google Translate API for fast, multi-language translation support.
- Optimized response handling for improved translation accuracy and performance.

Task Analytics Dashboard

Technologies: JavaScript, Chart.js, CSS

- Designed a responsive task management dashboard with real-time productivity analytics.
- Implemented velocity charts and activity calendar for performance tracking.
- Applied glass-morphism UI principles to improve visual engagement and usability.

Interactive 3D Resume (Flip-Book Interface)

Technologies: HTML, CSS, JavaScript

- Created an interactive 3D flip-book interface using CSS3 transforms and DOM manipulation.
- Enhanced user engagement through dynamic transitions and interactive elements.

CERTIFICATIONS

- Flutter/Dart Workshop – Application Development
- Siemens Mobility – Commercial Project Manager Job Simulation
- Siemens Mobility – Operations Industrial Engineer Job Simulation
- Google Analytics Certification
- Deloitte Australia – Technology Job Simulation
- AWS – Solutions Architecture Job Simulation
